

WIG DRYING CABINETS

DC-1000-WIG - with circulation fan

Options include lockable wheels, top or side controls, solid doors and hair extension hangers

Models DC-1300 and DC-1000 have two doors whilst the DC-300 and DC-540 both have one door. They are floor-standing cabinets with hinged toughened glass doors. For optimal drying of wigs they are fitted with an interior fan and dial thermostat control for faster and safer drying.

All **drying cabinet models** have adjustable temperature control up to approx. 50°C with overheat safety protection. The cabinets are made from single skin sheet steel finished in easy clean grey stove paint, and the wire shelves are adjustable to accommodate heads and wigs of different sizes.

Model Ref.	Capacity Litres	Shelves Supplied	External (mm)			Internal (mm)		
			H	W	x D	H	x W	x D
DC-300-WIG	300	3	965	x 583	x 610	865	x 581	x 600
DC-540-WIG	540	3	1650	x 583	x 610	1550	x 581	x 600
DC-1000-WIG	1000	4	1650	x 1110	x 585	1550	x 1108	x 580
DC-1300-WIG	1300	4	1650	x 1110	x 765	1550	x 1108	x 757

Circulation fan adds 200mm to external height. Dimensions are approximate.

All glass is excluded from the 12 month warranty
